Left to right, Henry M. Owades, Vice President of Region I, AIIE; James P. O'Brien, President; David E. Cahill, Jr., Vice President; Edward A. Marti, Treasurer; Andrew D. Poggi, Secretary.

immortalized by Poet Henry Wadsworth Longfellow in his poem "Organ of Guns."

Our tour was followed by a social hour and dinner. In the evening, the program was climaxed by a panel discussion on "Springfield Armory Today." Another precedent was established by having, for the first time in the long history of Springfield Armory, the chiefs of the four operating divisions participate publicly as a group. The division chiefs who served as panel members were: Herman F. Hawthorne, Research and Development; Harry F. Lynch, Engineering Division; George G. Mackintosh, Operations Division; and James V. Rowley, Inspection Division. The panel discussion, in addition to newspaper coverage, was covered by one of the local TV stations for its news program. President Johnson and Program Chairman O'Brien were assisted in arranging the program by Charter President Benjamin F. Ridall and Theodore J. Trudeau, both of Springfield Armory.

The April meeting was highlighted by guest speaker C. W. Carter, industrial management consultant, Longmeadow, Massachusetts. He spoke on "Statistical Engineering." Nominations for the 1960-1961 season officers were submitted by the nominating committee chairman Robert P. Warriner, William Carter Company.

The May meeting was a triple feature: "Ladies Night," election of officers, and Vice President of Region 1, Henry M. Owades. Mr. Owades, in addition to installing the officers, described some of the activities of the National Convention. His presentation of "Industrial Engineering in the 60's" was inspiring and greatly enjoyed by both the members and the ladies. The elected officers are: President James P. O'Brien, Chapman Valve Mfg. Co.; Vice President David E. Cahill, Jr., Worthington Corp.; Treasurer Edward A. Marti, Wm. H. Carter Co.; and Secretary Andrew D. Poggi, Buxton, Inc.

WINSTON-SALEM CHAPTER

The Winston-Salem Chapter has lined up a number of interesting programs for the 1960-1961 season. Our program for September was on the topic of Chapter Development. Mr. C. T. Johnson of R. J. Reynolds Tobacco Co. spoke to us on "Measuring Chapter Performance Against Standards." Student Recognition was the theme of the October meeting. Mr. Ray Gibbs, Superintendent of County Schools, and Dr. Robert Hanes, Director of Secondary Education in the Winston-Salem Schools, were guest speakers.

The coming year holds two planned plant tours: In November, we will tour the Chatham Manufacturing Co., and in February, the Winston Printing Co. We are fortunate to have Alex Rathe, President of AIIE, as our promised speaker at the January meeting. In February, there will be our annual Joint SAM-AIIE Conference, with its topic of Motion and Time Study. Plant Engineering will be the subject of the April meeting, with Mr. W. C. Wallin of Western Electric Co. as guest speaker. We will wind up the 1960-61 season in June with our annual Ladies' Night.

12th Annual

AIIE NATIONAL CONFERENCE AND CONVENTION

May 11, 12, 13, 1961

Sheraton Cadillac Hotel

Detroit, Michigan
